

# THE BEAR

## Embrace Your Power Prepare for the unexpected Trust yourself

In Angel's world the Bear is the fighter, the energy that will continue to fight for survival, even after sustaining serious wounds, that will listen to the signs of nature and be always ready to confront difficult times.

Angel uses the Bear to communicate a special message to you, whispering to your ear a secret with words of encouragement, for you to continue a mission Angel started

With this moment of close intimacy, Angel wants you to know that you have the power to change things for the better, by trusting the power you hold in your heart

***You are here because you can have more power than you think***

***The world is collapsing***

***There is only one thing that can save it***

***Kindness! Yes, kindness with a bit of bravery!***

***Now you know it***

***Let your world know***
